## DETAILED ACTION

### *Election/Restrictions*

1. Claims 21-25 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant timely traversed the restriction (election) requirement in the reply filed on November 5, 2003.

### *Claim Rejections - 35 USC § 103*

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 17 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over European Patent Application 0 928 680 A1.

This reference is applied for the same reasons as set forth in paragraph 6 of the Office action mailed April 1, 2004. Contrary to applicant's arguments, the reference clearly discloses the two alternative locations for the second circumferentially inextensible annular insert 28 and the purpose of the inextensible annular structures as anchoring the tire to the rim and counteracting bead rotation, therefore one of ordinary skill in the art would have a reasonable expectation of success in providing the circumferentially inextensible annular insert in both alternative locations to further anchor the tire to the rim and to further counteract bead rotation.

### *Double Patenting*

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground

Art Unit 1733

provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claim 19 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 32 of U.S. Patent No. 6,457,504 B1 in view of European Patent Application 0 928 680 A1. These references are combined for the same reasons as set forth in paragraph 8 of the Office action mailed April 1, 2004.

6. Claim 20 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 32 of U.S. Patent No. 6,457,504 B1 in view of European Patent Application 0 928 680 A1 as noted in paragraph 5 above, and further in view of claim 20 of US Patent 6,457,504 B1. These references are combined for the same reasons as set forth in paragraph 9 of the Office action mailed April 1, 2004.

#### *Conclusion*

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
